Work Experience

UI Platform Engineer

Teradata | November 2018 – Present

- Helping develop Covalent using Angular, TypeScript, and Material Design.

UX Developer

Learning Equality | June 2016 – November 2018

- Developed the front-end of Kolibri using Vue.js, Vuex, a REST API, ES6, and Webpack.
- Helped design and develop a living style guide for Kolibri.
- Regularly participated in design reviews with the UX design team.
- Worked on the Android build of Kolibri.
- Worked on the pipeline of the Video Vectorization Project.
- Performed on-site user research at various deployments.

UX Design & Front End Development Intern

Learning Equality | September 2015 – June 2016

- Developed a web player for the rendering side of the Video Vectorization project.
- Implemented the player using JavaScript and the HTML5 canvas.

Wordpress Developer

The Center for Ethics in Science and Technology | September 2015 – June 2016

- Redesigning the center's site to improve user experience.
- Worked on improving the overall UX of the site for both admins and visitors.
- Ran a heuristic evaluation on the site.
- Interviewed the admins to gather their needs.
- Created wireframes and mockups for the new design of the site.
- Implemented the newly designed site using WordPress.
